## Professional Summary

Experienced and highly skilled Front End Developer with a passion for crafting exceptional user experiences and creating visually stunning web applications. With a solid foundation in HTML, CSS, and JavaScript, I possess a deep understanding of front-end technologies and frameworks, enabling me to develop efficient, responsive, and intuitive interfaces. Equipped with a strong eye for design and an ability to collaborate effectively with a cross-functional team. Whether working independently or in a collaborative environment, I am committed to delivering high-quality, accessible, and scalable front-end solutions that exceed client expectations.

## EXPERIENCE

### Ani+Co, New York, NY — *Front End Developer*

March 2022 - Present

- Developed a responsive website that is optimized for both desktop and mobile devices, increasing user engagement by 20%.
- Implemented a single-page application using React and Redux that improved overall performance.
- Utilized HTML, CSS & JavaScript to create a dynamic, interactive user interface that improved user experience.

### Bravery Studios, Garfield, NJ — *Front End Developer*

May 2022 - December 2022

- Developed front-end architecture that improved scalability and performance of the website.
- Developed a secure, interactive web application with a modern front-end framework and an intuitive user interface
- Developed a full stack web application from scratch, including back-end services, front-end interface and database.
